### Notification of neighbours and the local community

If an incident has a risk on human health or the environment external to the Site, early warnings and regular updates are to be provided to any premises likely to be affected. The Site Manager/Operations Manager/HSE Manager will need to assess the situation and liaise with emergency services to determine:

- Who to contact;
- What information needs to be provided; and
- The appropriate method for communication.

Methods of communication may include but are not limited to phone calls, in person (door knocking) or mail. Communication mechanisms must be coordinated with the emergency services personnel responsible for managing the response to the incident. Contact information is contained within the PRIMP.
