

## PRODUCT DATA SHEET

# SikaRoof® VersiScape Reinforcement

### ALUMINIUM REINFORCEMENT FOR SAFETY PANEL

#### DESCRIPTION

SikaRoof® VersiScape Reinforcement is a square hollow section reinforcement bar used to increase flexural strength of raised flooring safety panels. The reinforcement bars are manufactured from aluminium and are used in conjunction with SikaRoof® VersiScape™ Panel. The reinforcement bars are inserted on the under surface and long the four sides of the panel.

#### USES

Reinforcement bar for safety panel for raised flooring for podiums, balconies and roof terraces. The safety panel may be used to raise conventional 600 x 600 mm pavers, pavers of varying sizes, artificial grass, or a combination of the three.

#### FEATURES

- High flexural strength
- Resistant to biological attack by moulds and algae
- Chemically resistant to acids, alkalis, oils and soil chemicals

#### PRODUCT INFORMATION

##### Packaging

- SikaRoof® VersiScape Reinforcement: 16 pieces / bundle

##### Appearance and colour

Silver square hollow section bar

<b>Shelf life</b>	No expiration date if the product is stored in accordance to the storage conditions as stated in this Product Data Sheet.

<b>Dimensions</b>	19 x 19 x 520 mm
<b>Weight</b>	0.15 kg / bar

## BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

## IMPORTANT CONSIDERATIONS

For more information, please contact Sika Sales Personnel.

## ECOLOGY, HEALTH AND SAFETY

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in the product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0,1 % (w/w).

## LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
