- Fast cure
- Solvent free
- Resistant to heat
- Water resistant (D4 according to DIN EN 204)
- Applies white, can dry translucent if applied in thin layers

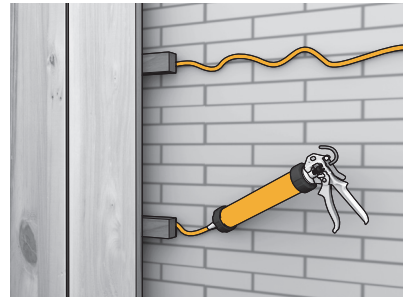

USES

SuperGrip strength

Initial grab and high strength after 30 minutes.

See curing times*.

Bonding of many construction materials including LOSP timber.**

Bonding of substrates include:

- Wood
- MDF
- Concrete
- Brick
- Metal
- Polystyrene
- Polyurethane foam
- Some PVC
- Marble
- Some rubber
- Granite
- Ceramic
- LOSP Timber

*Always consult the PDS to ensure the product is right for your project.

**One or both materials to be bonded must be porous, ensure the materials are held together using clamps, wedges, props or mechanical fastening until a sufficient bond is achieved.
